Allowable Subject Matter

Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-15 are allowed because a comprehensive search of prior art failed to teach, either alone or in combination, an address generator for use with transmission or reception of data symbols interleaved onto substantially four thousand carriers of an Orthogonal

Art Unit: 2611

Frequency Division Multiplexed symbol, the address generator being operable to generate a set of addresses, each address being generated for each of the data symbols to indicate one of the carrier signals onto which the data symbol is to be mapped or de-mapped, the address generator comprising a linear feedback shift register including a predetermined number of register stages and being operable to generate a pseudo-random bit sequence in accordance with a generator polynomial, a permutation circuit operable to receive the content of the shift register stages and to permute the bits present in the register stages in accordance with a permutation order to form an address of one of the OFDM carriers, and a control unit operable in combination with an address check circuit to re-generate an address when a generated address exceeds the predetermined number of carriers, characterised in that the linear feedback shift register has eleven register stages with a generator polynomial for the linear feedback shift register of $R_i'[10] = R_{i-1}'[0] \oplus R_{i-1}'[2]$, and the permutation order forms an eleven bit address $R_i[n]$ for the i-th data symbol from the bit present in the n-th register stage $R_i'[n]$ in accordance with the table:

$R_i'[n]$ for $n =$	10	9	8	7	6	5	4	3	2	1	0
$R_i[n]$ for $n =$	7	10	5	8	1	2	4	9	0	3	6

, as the applicant has claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
